

? Your pet's name:: **Pixel**

? If different, do you remember their name at the shelter?: **Castiel**

Please share any stories or updates about your pet, below. These are all optional questions, to help guide you. Feel free to answer as much, or as little, as you'd like to.

? What drew you to your pet, at the shelter or online?

**That he was tiny**

? Describe your pet's behavior when they first came home

**At first I was a little shy**

? How have they grown?

**For the shelter, its name is Castiel, but for us, it's Pixel. Our canine baby is already peeing on top of the diaper mats. I'm trying to create a routine so that after certain activities he looks for the diaper by himself.**

? What are some of their favorite things?

**He likes to sit on top of the heating rings because warm air is always coming out of there. I have also noticed that he likes to see himself in the mirror, although at first he was scared, now he likes it because he thinks he is playing with another dog, when in reality it is his own reflection.**

? What sort of adventures have they been having with you?

**My canine baby learned to climb the stairs of the apartment on the third day. I was very surprised to see him above. For now he only knows how to go up, he hasn't learned to go down yet, so I have to bring him down loaded.**

? What has your adopted pet taught you about animals?

**That animals are a blessing, that they need a lot of love, respect, patience and protection.**

? Is there anything you want to share with our team?

**My most sincere thanks to all those who are part of the shelter, because they have given me the most beautiful thing I have with me.**
